

## **Strategy 4: Financial Stability and Sustainability**

To preserve Hamline's mission and vision, we will implement forward-thinking, transparent, and consistent policies to ensure proper stewardship of the University's resources. Collaborative, adaptive, transparent, and dynamic financial planning is important to the success of any endeavor.

**Goal:** Ensure the continuance of a sustainable financial model.

**Objectives:**

1. Develop a transparent, consistent and collaborative budgeting process which includes visible, evidence-based processes to inform decision making and resource allocation.
2. Align University resources with strategic academic and student initiatives.
